Cluff Natural Resources is a natural resources investing company listed on the AIM market on the London Stock Exchange (CLNR.L) primarily focussed on the Southern North Sea gas basin, with a high impact portfolio of operated, high working interest exploration and appraisal assets.

On 23 May 2018, the Company was provisionally awarded an additional 6 licences in the Southern and Central North Sea by the UK Oil and Gas Authority in the UK's 30th Offshore Licencing Round. These blocks contain oil as well as gas prospects and are estimated to contain 1.9 TCF of P50 prospective resources.

Cluff Natural Resources is focused on extracting much needed gas from the North Sea to supply the UK’s energy mix which is currently heavily reliant on foreign supply. The Company is focussed on securing partners and funding to embark on a drilling campaign on the proven fairways of the Southern North Sea basin.

The Company has a strong institutional investor base and a portfolio which offers a unique opportunity of high quality, low risk and low-cost drilling prospects with potentially high impact results in an area where recent exploration has targeted both mature and new plays and has resulted in large discoveries.
